

Alpine Shire Council Corporate Planning Framework

(Adopted June 2014)

Strategic Alignment Project

The Strategic Alignment Project (SAP) will be conducted during the term of the Alpine Shire Council Plan 2013-2017, and will introduce a consistent, organisation-wide approach to agree on clear priorities for services and projects, the human resources required to deliver those priorities and how these will be monitored and reported on. The SAP will help to determine relevant project milestones and performance indicators for services, and inform appropriate indicators from the Council Plan, right down to Individual Work Plans.
